“ Homer was a close friend to my father Bucky. My Dad was a little older but they were buddies since youngsters The both had the loving relationship with flying. I remember when Homer and Penny would come to town for a visit they always stop by with the girls so we could hang out too! I remember Linda and Lori and myself playing Barbies in the living room during one of the visits I remember going to Walkhill air show every year with Homer and Penny. Me and,my Mom and Penny in the back seat and the two men in front. It was a stay over weekend so I was always excited to see them. they were always so much fun with my parents. Homer attended both my daughters weddings. Homer drove my oldest daughter to her wedding in his corvette. Very exciting for her! With my second daughters wedding 10 years later, Homer was there but my parents had passed by then. It was very sad but I felt so much better when he arrived. I felt my parents around me more having him there since he was the only one I could talk to about the past. He was the last one. Homer and I slow danced to Georgia. It was happy and sad. He said thank you for dancing with me, I can't remember the last time I did. By the way, Homer was a very good dancer. It was something I will never forget.

“ *I flew with Charlie on the Boeing 727. He told me a story where he and a son landed a J3 cub on one of the Georgia barrier islands, I cant remember which one, maybe Cumberland or Sapelo. A ranger saw them and was in pursuit. They had to prop the plane but were able to escape. Very nice man that was a joy to fly with. Sorry for your loss.*

So sorry to read of Charlie' passing. When I was a teen ager, Charlie let me take his Aeronca Chief up solo! He was a super inspiration to me and I went on to be a B-52 pilot with the Air Force. RIP Charlie! Bill Weaver, Colonel Usaf Retured

AR

“ I first meet Charlie and Penny when Lori and I were in high school, Jim has known him since they moved into the neighborhood. He has been our neighbor for 35 years and you couldn't find a better neighbor. He let all the neighborhood kids ride their 4 wheelers on his landing strip, never complained when there would be large groups of teen's riding the landing strip and if someone broke down he would try to help them fix it or send someone to get Jim to come fix it. He always made me feel out of shape watching him jog when we first moved in. He always had a kind word and a wave for everyone. He is going to be missed greatly around her. Sending prayers of comfort to all of Charlies family. Love you Linda and Lori.

“ I'm so sorry for your loss. I too know the sting of death. The memories of good times will carry you thru these sad days. I hope that you can surround yourself with family and those who can build you up with the comfort you need. There is the best support found in God's word. Please read Isaiah 25:8. Death will soon be a thing of the past and there will be no more tears. Take care of yourself and let the scriptures fill you with hope and promise.

“ Dear Family,
May God give you comfort and peace at this sad and difficult time Charlie was a good neighbor, and will be missed. I am sorry for your loss.

My prayers are with you.

I first met Charlie when we started with Delta in our class of Sept. 10, 1956. I remember he had a J-3 Cub that he was flying down and around Florida until it was damaged in a windstorm down the west coast and back up the east coast.. I remember him telling me that he woke up in his hotel room and was watching the news and they showed a picture of the only airplane on the airport that was damaged in the windstorm(his).. I lost touch with him since we were in different bases except when I'd run into him while we were both on trips. He was such a good guy. I am so sorry to hear of his passing.

I flew with Charlie several times over the years, and I enjoyed being a part of his crew. He was a fine pilot, a gentleman, and he could be quite funny. Charlie carried a little notebook in his shirt pocket that contained a number of jokes. When we were comfortably at cruise altitude he would say, "time for a joke." He would pull out the notebook, read one of his jokes, close it back up and return it to his pocket. Then, we returned to the business of monitoring the instruments. Charlie made work fun.
