“ *My deepest heartfelt condolences to the Carroll family. I met De in 2001 he was the first coach I ever worked worked, and my mentor for so many years. I have so many fun memories. De had is first name on his work shirts, I told him never to look down or he would think his name was Ed. He thought that was hilarious. "why are you telling me this I don't care", his favorite saying. I will miss De so much, and my life has been enriched by having him it it.*

“ I met De about 8 years ago at Abernathy's H-D. I was the licensing coach for their first class. Throughout the course of the weekend we had several discussions on how and why to teach using a learner centered method. He gave me a few ideas which I still use in the classroom today and I think fondly of him whenever I use one of the techniques he showed me. I had the opportunity to break bread with him a few times over the years at Rider's Edge and then Riding Academy updates as well as Tennessee State Updates. What impressed me the most about him was how calm he was at all times. I try to emulate that in my daily life and especially in the way I approach the students in my classes.
