“ We would like to offer our sympathy to all of you in the passing of dear Grandma June. We have such fond memories of June. She always had a big smile and enthusiastically greeted us whenever we would get to see her. June would seem to treasure every opportunity to get together with her family. June may have been short in stature but was very tall in her character. We know her life was not always very easy but we believe she always made the best of her life.
