“ I remember being in an SUV with Frank Hayes and Tally Jones. Frank was driving. We were on the airfield. Frank said, this SUV will probably do 100 MPH. Talley said, "No, it won't, see the speed gage only shows 80 MPH." We were on a closed runway, so Frank punched the accelerator! He got the SUV up to 80 MPH. He said, "See that is 80 MPH." Then he punched it again. He said, "That is about 90 MPH!" Then he punched it again, he said, "That has got to be 100 MPH!" Talley said, "Yeah Frank, you are right." Frank then slowed the SUV down!

“ Frank was one of my mentor at ATL. His passing brings back some of the fondest memories, his wit and unfiltered stories he used to share after work, for hours.

Several of our company staff were part of this team, and we are all deeply saddened to hear of this loss.

A legend may have passed, however Frank's legacy lives on at ATL

...

Heaven is a much brighter place due to Frank's presence.

Our sincere condolences to Tracy, Sandy and rest of the family.

“ I am so sad to hear of the families loss. Frank was a powerful force of life. When Frank liked something he would talk about it incessantly and without filter. Thus I came to know what he cherished most: his precious wife Anne, daughters Karen and Sharon, Tracy and Sandy and son Rodney and sister Jan. He had a passion for building things that would last - bridges, runways and family. Based on the excellent care he received towards the end of his life Frank is beloved.

“ My condolences to Frank's family. I knew him through work here at Hartsfield Airport, and he was always great to talk with, whether it was about runway concrete, or about fishing on the Delaware River. God Bless and God Speed, Frank!
