“ I said as much to Don, that I have never met anyone like Irene in my life. Ever since my first Griefshare when I started to lose my family, the one thing I always said about her is that she always knows what to say when to say, and how to say it! I even had her speak to my dad when he was 100 years old. She knew Greenville where he was. Irene is one of a kind. My heart goes out to Don, her family and everyone who knew her. This is leaving a big hole in my heart. I contacted her every two weeks sometimes more if need be..
