“ So sorry to learn of Kens death. I met him my first day at Delta Air Lines and we have been friends ever since. I worked in the Eng. Metal Shop with him and we carpooled together for a while. I also worked with him in the tooling dept. after I retired. He was known as "Barney" in Dept. 381. He was genuinely a good man and was very talented in many ways. He will be sorely missed by all. Bill Pitts

“ So sorry to Hear about Kenny. I knew him mostly when we flew our radio controlled airplanes at the children's home. We had a lot of fun flying and talking on Sunday's after church. I also knew him at delta. I have shared with the retiree's FB page. I will be praying for your family. Sincerely Dennis Ball

“ I worked with Ken at Delta while we were both Analyst in the Tool Engineering group. He was very bright and always came up with a good method to make it better for maintenance and easier for the Technicians. He will be missed by all who knew him.

“ I knew Kenneth before he went to school around his Dad`s shop and later in the years I was in a carpool going to work at Delta, saw him at delta quite a few times around Delta, watched him get promotions!
He left me with one solid impression, He was a Great all-round Man!!
Sincerely, Jim Turner
