“ Lori, was my crazy big sister. Who would let their baby sister drive a car at the age of 12 to go for cigarettes for Lori. Who would tell their mother that you have to buy a present for Kathy high school graduation. Lori did tell my mom to get me a ring. Lori understood my seriousness and anxieties of life. She say relax. I would say I can't. When my mom passed away I made a promise that no one will die in our family without us being there. Please mom take good care of Mark and Lori. God is with you now. Say hi to all our relatives and know I miss all of you dearly

“ One of my earliest memories are of Lori babysitting Kim and I and walking down the hill to the Ansonia mall,. My family lived with Aunt Bev and Lori, Mark, and Kathy in Conn. Lori, Ira , and baby Ashley living down the street from us in Ft Lauderdale and Ashley riding her big wheel with Lori and Ira going for walks..., An awesome summer with Kathy at Lori and Ira's double wide trailer in forsythe county. I wanted to grow up and have a house just like Lori's and theres the time Ashley and Lori shared an apartment in Sunrise with Aunt Sandy and Kim right next to Labare's (male stripper club) good times !!!! Lori and our beach days (baby oil sunburns). Lori going for a 'Bo Bo ride ' and couldnt find my wedding venue and didnt make it . ' Damn Bo Bo's ' Lori would bring the grandchildren down for fun at the zoo or christmas at the diplomat, (thank you Randy\$\$\$)... Meeting at St Augustine , Meeting at Orlando when Randy had a PuttPutt convention.. just sooo many memories, soo many good times in my 56 years with her and our family, We always tried our best to be together when we could and even in her last days we made beautiful memories. we were more than the word cousin to each other and I will always love my Lori and miss that (White Girls) laugh we all inherited. Xoxo little sandie
