“ Lynn was my next door neighbor on the mountain that she loved. She was my dear friend and an inspiration in every way. She was the most optimistic person I have ever known. I will miss her terribly but blessed to have had her in my life. RIP sweet friend

*Lynne was one of our favorite stewards. She was kind, friendly, fair and always willing to help. We called her family in the Northeast and I considered her a friend. I personally always looked for her when I was competing at the Nationals as she had a way to make a rider feel calmer. We are so sorry for your loss. We will miss her smiling face.*

*Lynn and I were life time friends. The first time I met her (@10 yrs of age) she spent the night with me. She loved horses and I had 2 at the time and we went everywhere on those horses. I loved her as one of my own sisters. I will miss her so very much.*

*Our parents rented a home from Lynne in College Park. Lynne and I were trying to get together so I could return some old family pictures we found of hers. So sorry to hear about her passing. I still have the pictures if someone could let me know how to get them to the family.*
