“ From the moment I met him, Dick Clifford was a commanding presence in my life. He set the tone for how a life should be lived, through his words and his actions. He had the vision to see where things should go, and the skills to lead his people to that goal. While some what soft spoken, people quickly learned that when Dick spoke, it was valuable to listen closely. On top of all these skills, he had a great sense of humor and was a caring individual. I will never forget when the time came for Delta Air Lines to present one of his service pins (40 years ?) Dick had obtained an additional pin to present to his wife for her participation, contribution and tolerance during his demanding Delta career. This was a true gentleman with great class who left a positive impression on the thousands of people he touched. This was truly a life well spent
