“ I had the pleasure of working with Richard at UPS for almost 6 years and he was by far the most intelligent man I have met automotive wise and electrical. If no one could figure it out Richard jumped to the challenge. He fixed so many problems corporate automotive had and was glad to do it. He was a great inspiration to me and others that have passed through the company. I know Richard loved his fishing and wish I would have taken the time to go with him. He asked me more than once to go but we all live in the fast lane now days and live to regret it later. My deepest condolences to his family for there great loss. He will be greatly miss by me and many many more.
