“ I had no idea this site was even here until today or I would have posted a long time ago... I miss my dad so much. I remember him letting me drive his truck when I wasn't technically supposed to. I remember how funny he was (especially when he's had a few cold ones) I remember how much he worked to provide for us growing up. Going on 17 years without you Dad but not a day goes by that I don't think about you. And I've made some terrible mistakes over the years that I'm just now learning from so I hope you're proud of me. I wish you could have gotten the chance to meet your grandchildren. What lucky kids they would be lol. I love you so much forever in my heart- Your daughter with your attitude, Trish ❤️
